
THE GADSDEN MEMORANDUM***A COMPREHENSIVE TIMELINE OF THE INVOLVEMENT OF THE "GADSDEN BRIGADE"
ON JANUARY 6, 2021***

Recently I was provided a zip drive with some very incriminating documents, pictures, and video. Upon receiving it I was told to do whatever I think is best with it. After reviewing it for only a short time it became clear to me that the American people must be alerted to the truth of January 6th, and all that has happened to these prisoners here in the D.C. Detention Center otherwise referred to as the Gulag.

Here within the following body of work you will find a fact-based report, to include names, documentation, timestamped pictures and video. Incredible amounts of time has been spent gathering and analyzing the information that was meticulously extracted from the factual information in the original reports, documents, pictures and video. It is best to be used as the originators intended, which is as a starting point for people to begin their own research. Together we can uncover the bad actors and agitators that were present and working with other dark forces to steal an election by entrapping its own citizens in a scheme orchestrated by people holding powerful positions within the federal government.

No matter how much video we've watched and taking into account all the dots we've connected along the way, we still cannot know every facet of the scheming involving undercover and uniformed law enforcement, informants, bad actors, or Antifa assets on a day involving a million people and an unknown amount of prior planning. We simply do not have the resources to complete all the investigating that must be done. We believe that this will serve as a testament to the greatest entrapment operation in American history, and for that matter, the history of the world.

The evidence used within is derived largely from government video sources such as Capitol CCTV footage, Metro Police Bodycam footage, some were pulled off the internet, cell phone footage from various defendants, and even in some cases from police themselves. The burden of making this case is huge, not merely because we are defendants in jail, but also because we lack internet access to verify sources or do research. We are also limited to resources from highly biased perspective, and because we cannot possibly catalog every agitator or conspirator on our own, we plead with any Americans who still believe in the U.S. Constitution to engage in this fight with us as it may very well decide the future of our great nation.

The information that is to follow, to the best of our knowledge, is factual, verifiable, and reliable. We again implore anyone reading this to please help in any way they can and answer this S.O.S. from Americans held behind enemy lines in their own country. Remember, these prisoners have limited access to the internet, and even limited access in many cases to their own court documents and discovery. Please pick something, anything within to look into yourself.

To keep things in perspective, when we consider the event, it becomes less noteworthy to see people waving the same kind of flags and wearing the same kind of gear. Also, we take into consideration that at an event of such magnitude; it is not unusual for a certain percentage of that population to behave strangely. And considering the event, even if the majority of the strange behavior has an unlikely relation to a specific type of flag and/or gear; there's still the likelihood of mere coincidence however at that point it should begin to raise an eyebrow or two and demand a bit more attention. However, there comes a point when something occurs so frequently, that there is the impossibility of coincidence, and it becomes a pattern.

The patterns that we will focus on with the following documents, images, and video will show that the agitators who instigated the disturbance at the Capitol on Jan.6th seem to have directors and leaders. The people with the Gadsden Flags direct the flow of people, while the people wearing Gadsden Patches seem to be the team leaders of Small Team Operations that work together and rotate their cast of characters at various “breach sites”.

It is also noteworthy that the majority of the “agitators” who instigated the disturbance on Jan.6th did not attend Trump’s speech, but rather; they prepared a trap for the people who did, by taking down all the “No Trespassing” signs and initiating conflict with the police, who then attacked the unsuspecting people who came to the Capitol after Trump’s speech.

We find that many of the agitators were not present at Trump’s speech. They were agitating and attempting to incite a riot during the time that Trump’s speech was winding down. Our objective here is to identify the people who infiltrated Trump’s supporters with the intent of creating a riot, and then projecting their crimes onto their opponents. Their objectives were to infiltrate, agitate, and then retaliate to what appeared to be, justifiable anger at out-of-control police officers. Undercover agitators and a handful of cops who acted out dramatic, staged scenes designed to hype up and misrepresent both the Trump supporting crowd, and the true events of what happened that day.

While you consider what is to follow, please also take into consideration the scene that day. Both the agitators, and actual Trump supporters chanted catch phrases together, helped clean mace out of each other’s eyes after the cops attacked, and basically mingled and bonded with each other for hours that day.

As people often do in dramatic and stressful situations like that. Please consider how friendly you can get with people at the same concert as you, now replace the concert with something that actually matters. Something that effects our lives in unimaginable ways. You will find that the lines between friend and foe can easily be blurred.

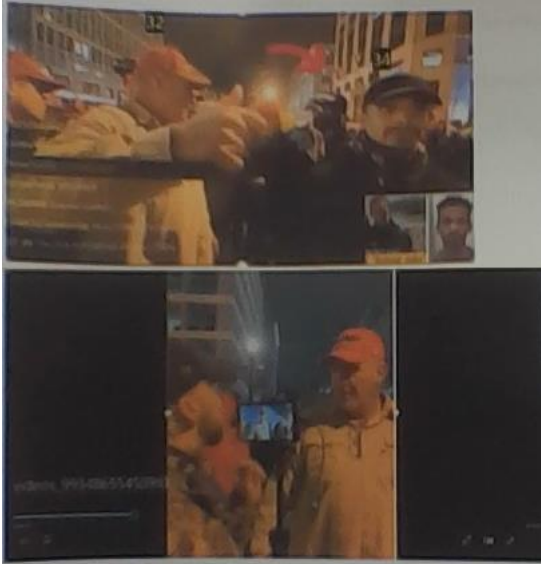

While some acts are quite obviously designed to agitate, most are more difficult to determine what the motivation was. Considering we are declaring that there were agitators planted in the crowd by the federal government it opens the investigation and pertinent facts up a bit wider. We need to look at more than the person's actions on January 6, 2021. We must also consider the person themselves based off of a wider pool of evidence.

On January 5, 2021, Ray Epps engaged in organizing behavior just as he did on January 6. It becomes pretty clear his goal at the time is to create overflow crowd levels at the Capitol. On the night of January 5, Epps was filmed by live streamer Tim Gionet aka "Baked Alaska", imploring everyone around him to "go into the Capitol." He was shouted down by people as a 'fed'. Gionet also encountered Epps in late 2020 at another rally in Arizona and claimed to have the same hometown as him. Epps also crossed paths with Antifa agitator and organizer John Sullivan.

Here is a quick video showcasing Ray Epps January 5th and 6th.

On January 6, 2021, barriers along the streets of D.C. actually funneled people towards Peace Circle.

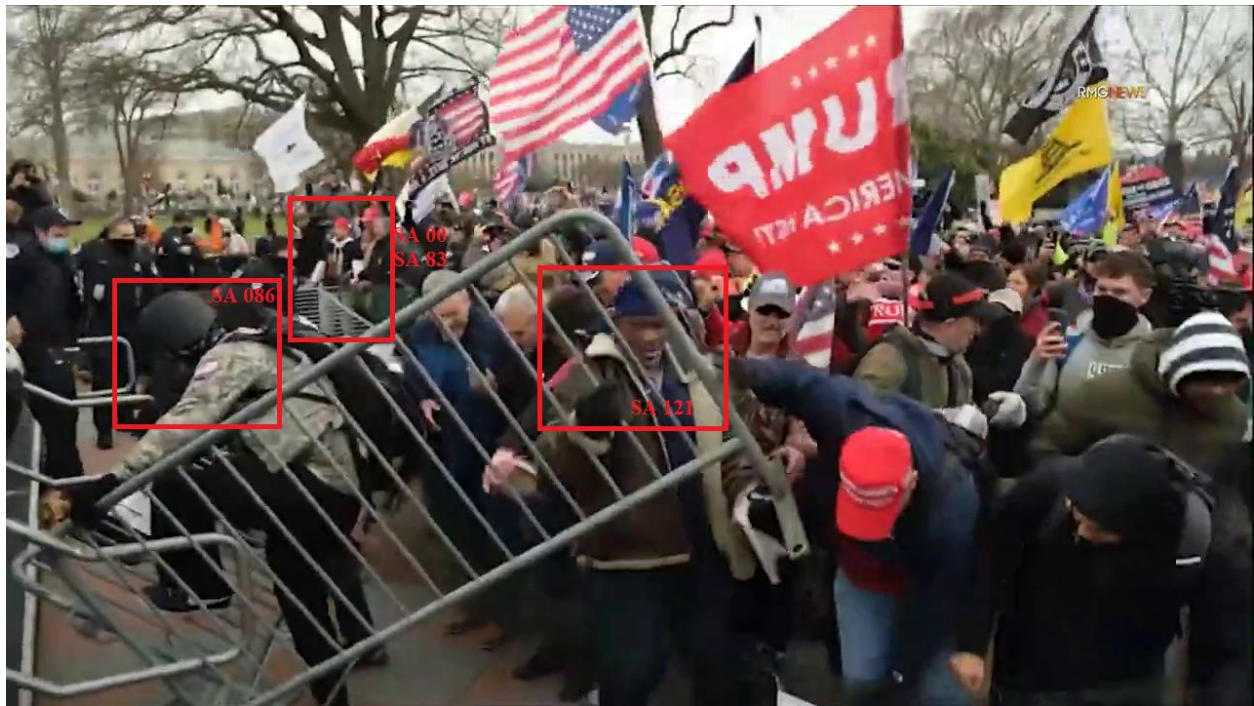

At 12:53 PM the First Barricade Breach occurs on the Pennsylvania Walkway with SA #000 Ray Epps present. The first man to breach a barrier on Capitol Grounds does not do so until another man scales the fountain at Peace Circle, Gadsden Flagger #056 “Fountain Man”. Following a whisper in the ear from #000 Ray Epps. This breach also involves the likes of SA #254 “Teal Scrambler”, etc. Orange Beanie #002 “Orange Bane” is seen as well.

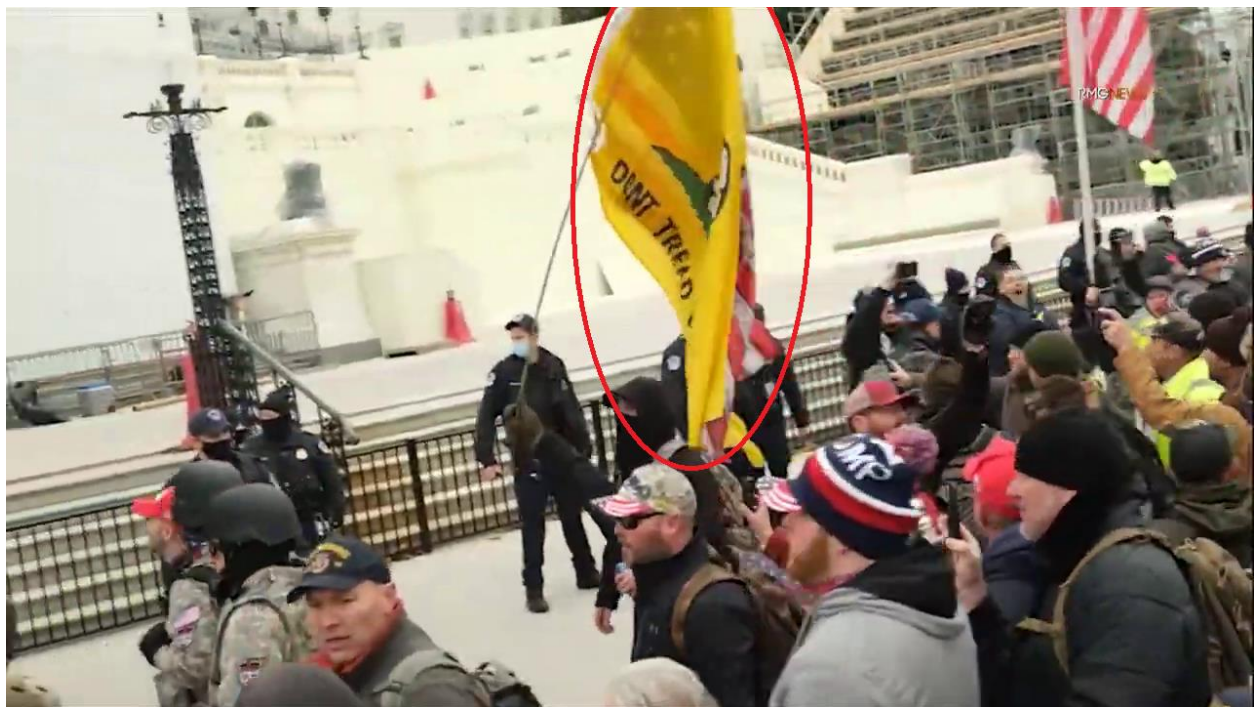

At 12:54 PM is the Second Barricade Breach. Not long after the breach of Peace Circle, interesting patterns begin forming with Gadsden flags spanning the West Lawn and path toward the West Plaza. Individuals present are SA #000 Ray Epps', #083 Ryan Samsel, #086/087 "Gas Mask Twins", #100 "Guy Fawkes Red", #211 "Barrier Breacher 1", #212 "2", #213 "3", #214 "4", #215 "5", #216 "6", #217 "7", #218 "F1", #219 "F2", #220 "Barrier Rallyman", #221 "Generispook 1", #222 "2", #223 "3", #224 "4", #226 "6", "Blumpfkin", etc. A high concentration of "double-sided" flags (one side Gadsden, another side something else) appear as well.

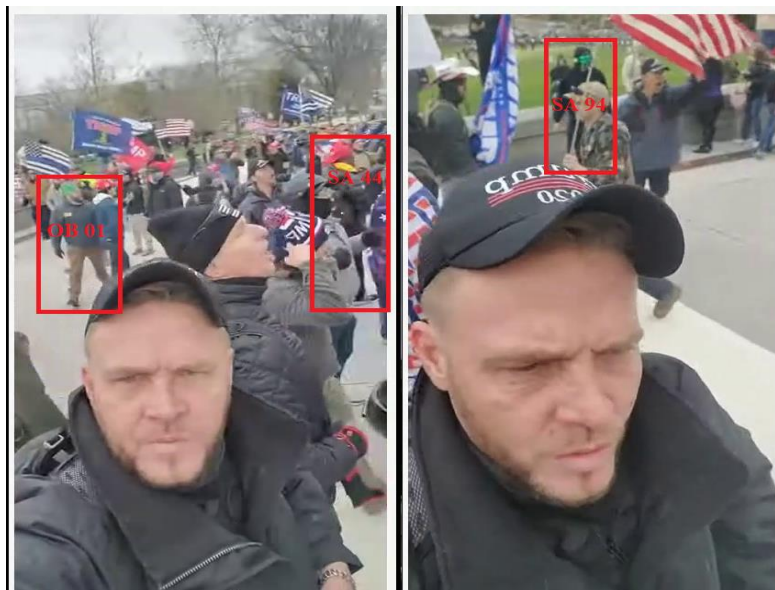

12:56 PM Orange Beanie #001 “Officer Beanie” appears. Notable, “Officer Beanie” initially has a green bandana on Capitol Grounds, but will don an orange beanie inside the Capitol Building. He seems to have a Gadsden patch on his chest, though it is dubious because of video quality. He will later use this patch to signal others and he seems to be missing the patch at other points.

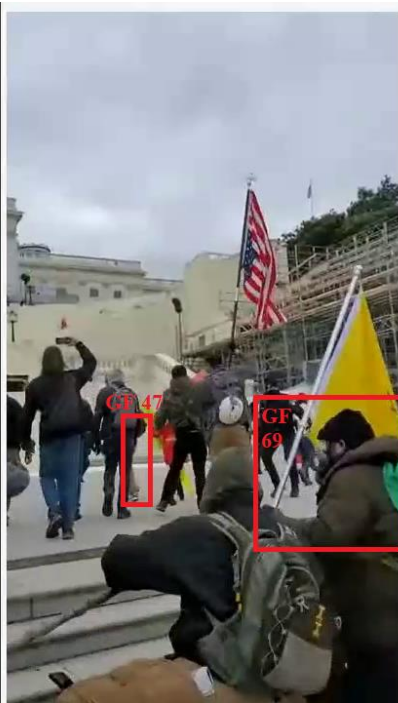

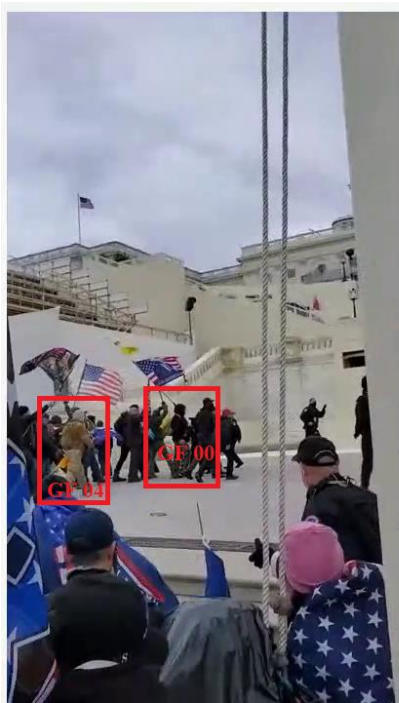

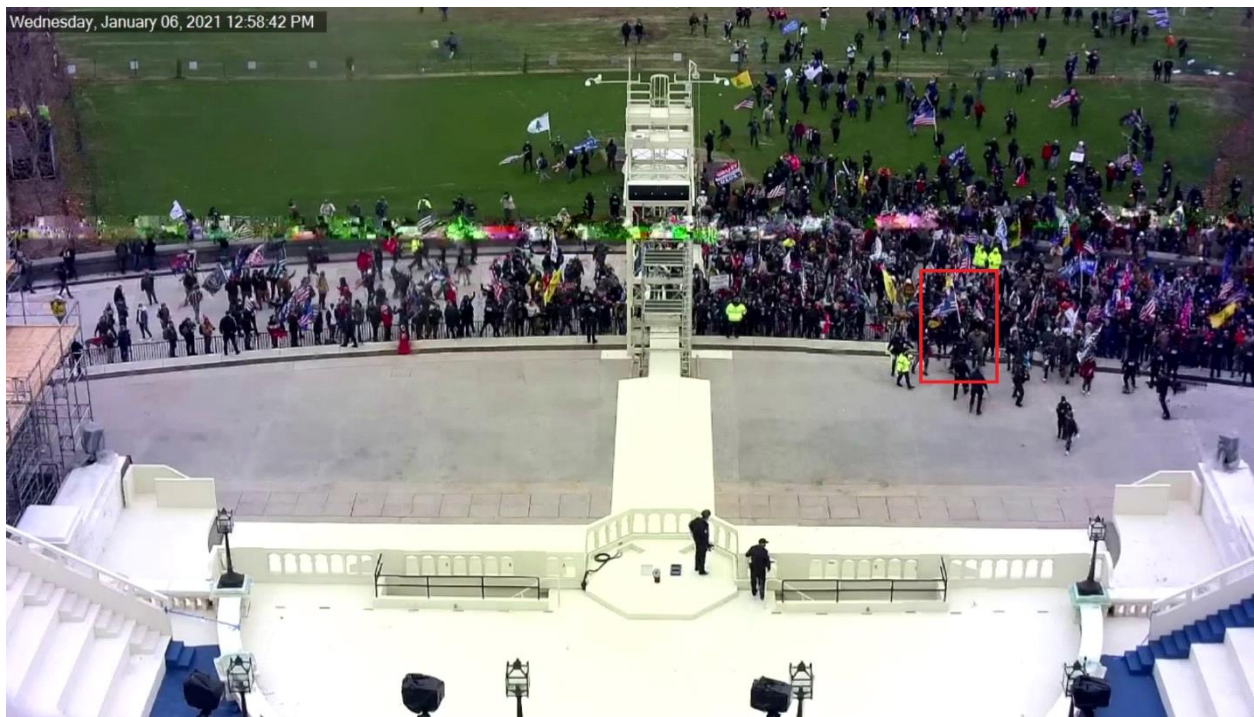

At 12:58 PM at the West Plaza Barricade Breach. Team members leave and join with Gadsden Hatter Team #001/002 “LemonZest”/“LemonyKickit” and others to take down other barriers and aid in the breach of the Columbus Doors. Gadsden flags converge along the fence line of the West Plaza, from all directions, including the South, and various SA’s appear, including #286 “Ribbed Coat Green”, #263 “Blumpfkin”, #044 “Black Ronnie”, #094 “Bugman”, etc. Media #013 “White Trash Streamer” is recording to promote the insurrection narrative, frequently commenting that they’ve already breached the building over an hour before said breach takes place. Gadsden Patcher #016 “Rightwing” moves around the base of the media tower. Orange Beanie #001 “Officer Beanie” appears on scene.

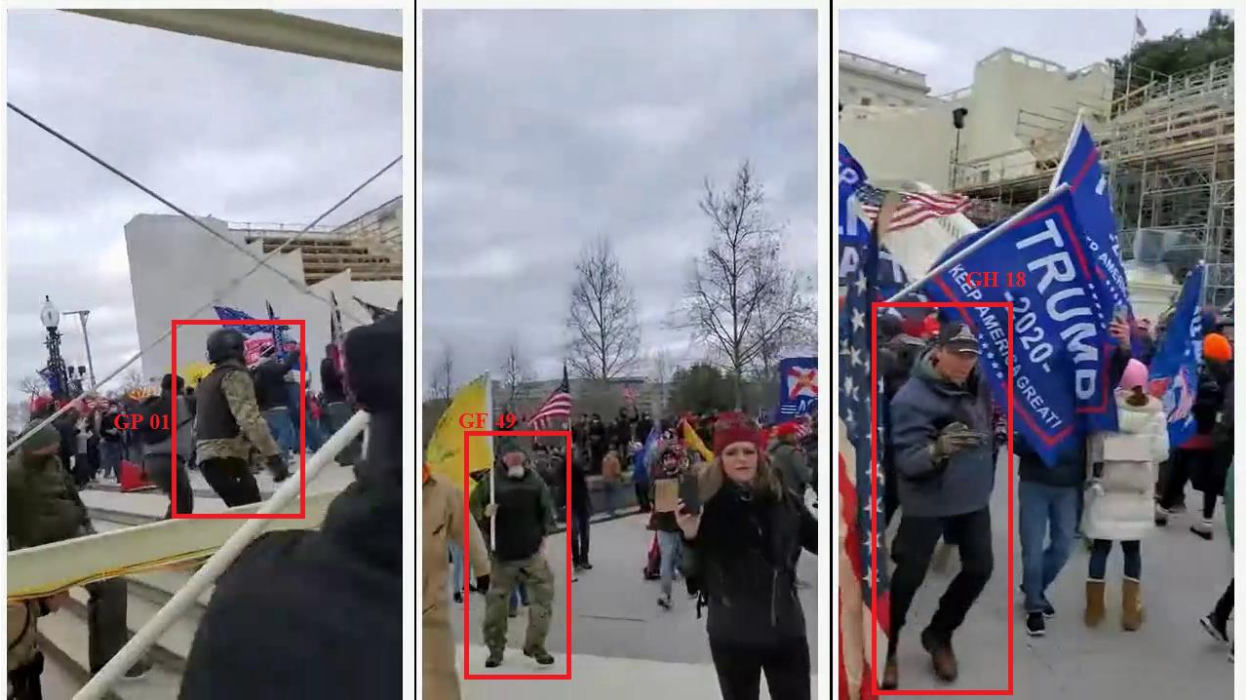

SA #000 Ray Epps' crew that helped breach Peace Circle barriers, goes over the fencing with 2 Flaggers, including Gadsden Flagger #000 "Super Flagger" and #004 "Fleece". Individuals begin tearing down signs to entrap unsuspecting bystanders. The 2 Flaggers maintain their pace and converge on the spot of another pair of Flaggers #047 "Rasta Redneck" and his partner #048 "RedChick", who also has #049 "Clover" behind her. Notable, "Rasta Redneck" keeps his hands in the air to signal others as they converge. "Rasta Redneck" uses this signaling measure throughout the day as he agitates and knocks police bike racks down. Ray Epps follows behind all these individuals.

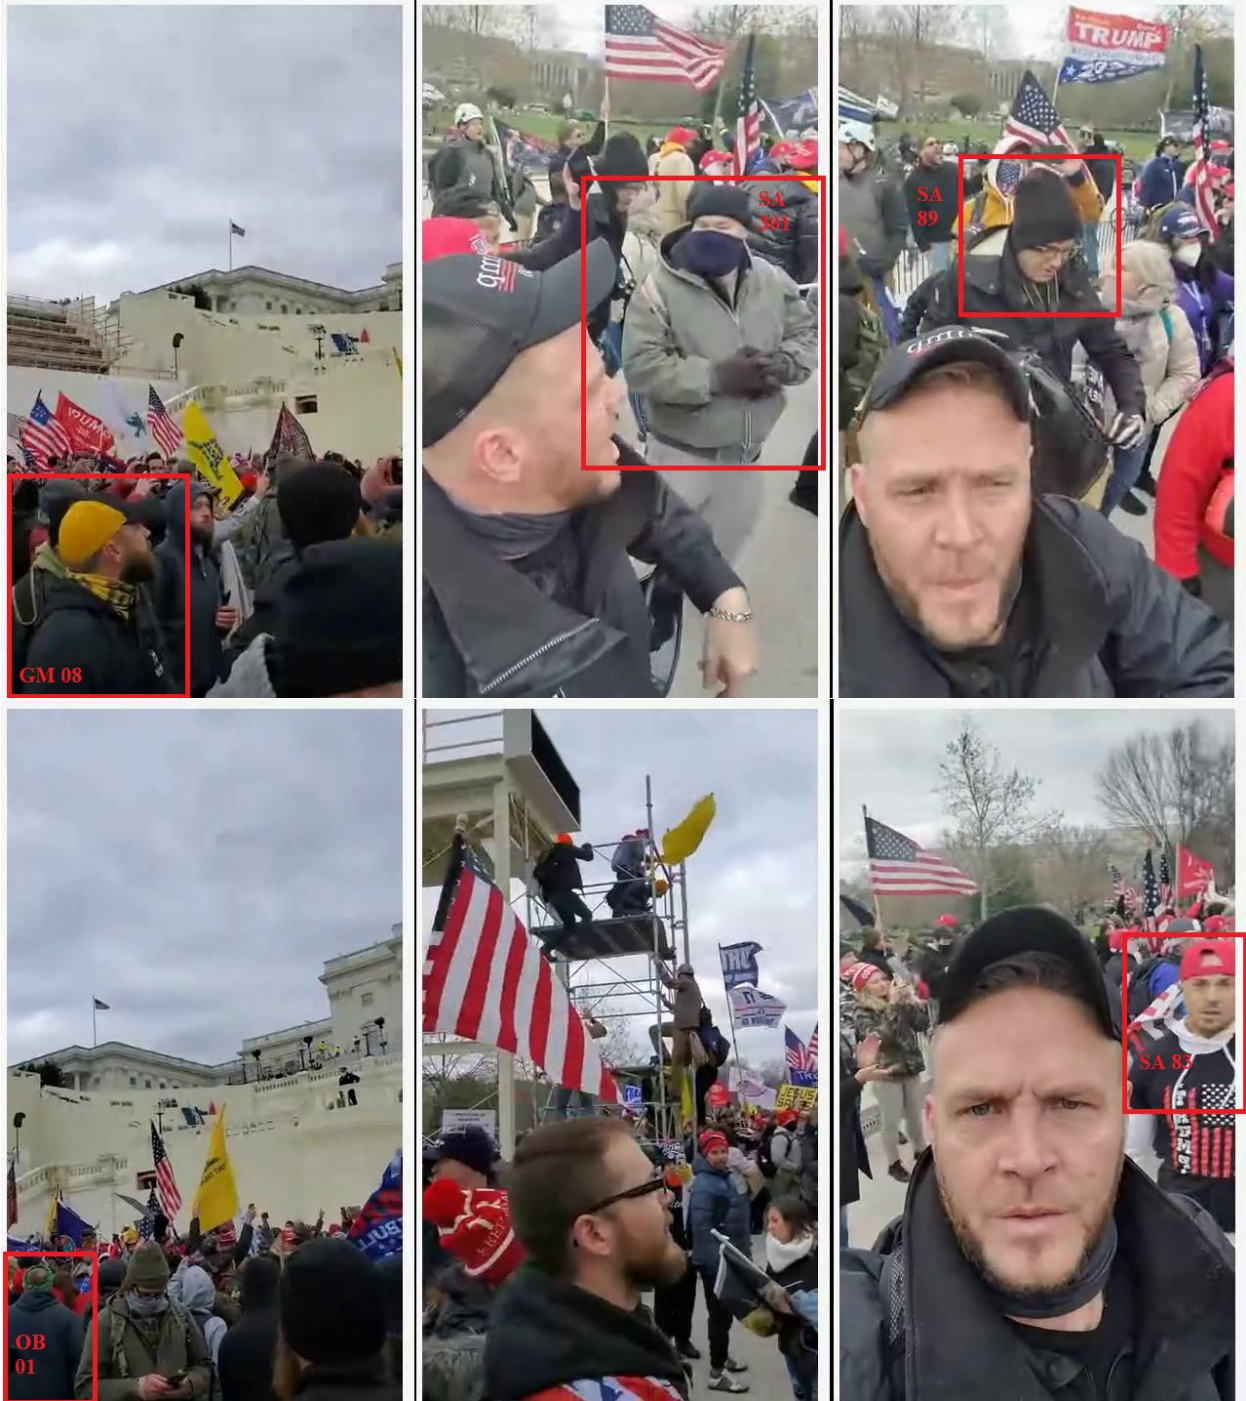

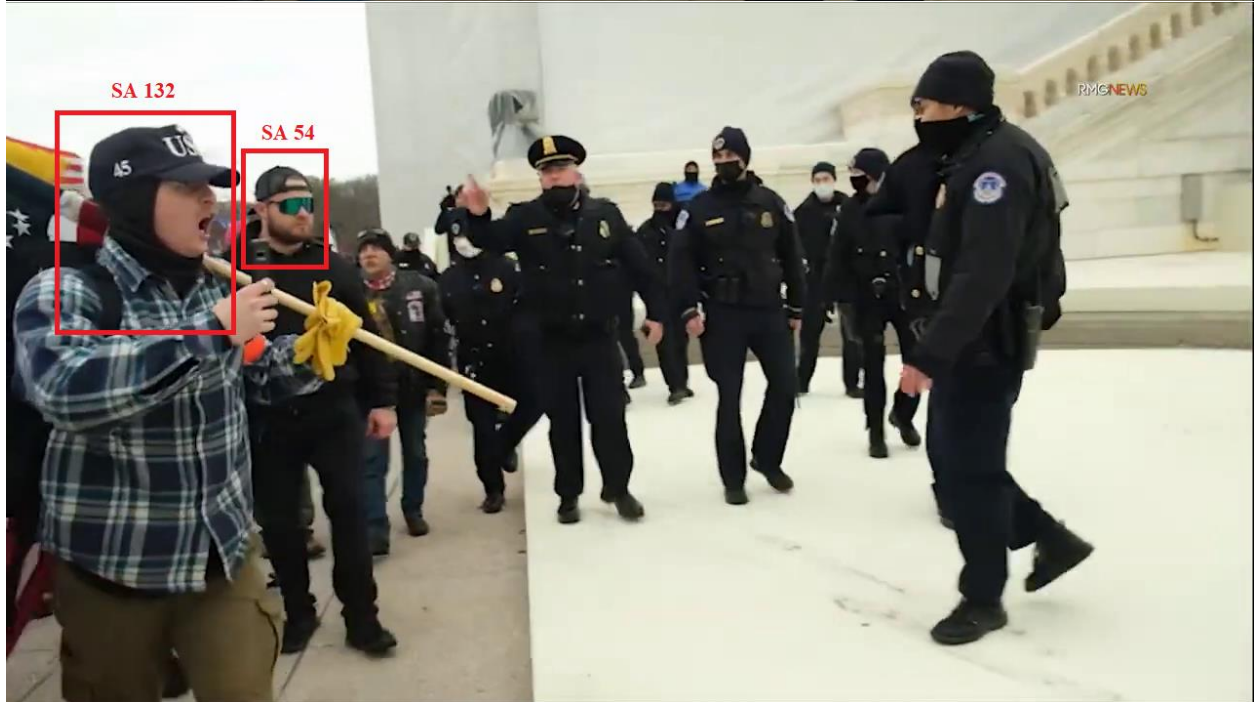

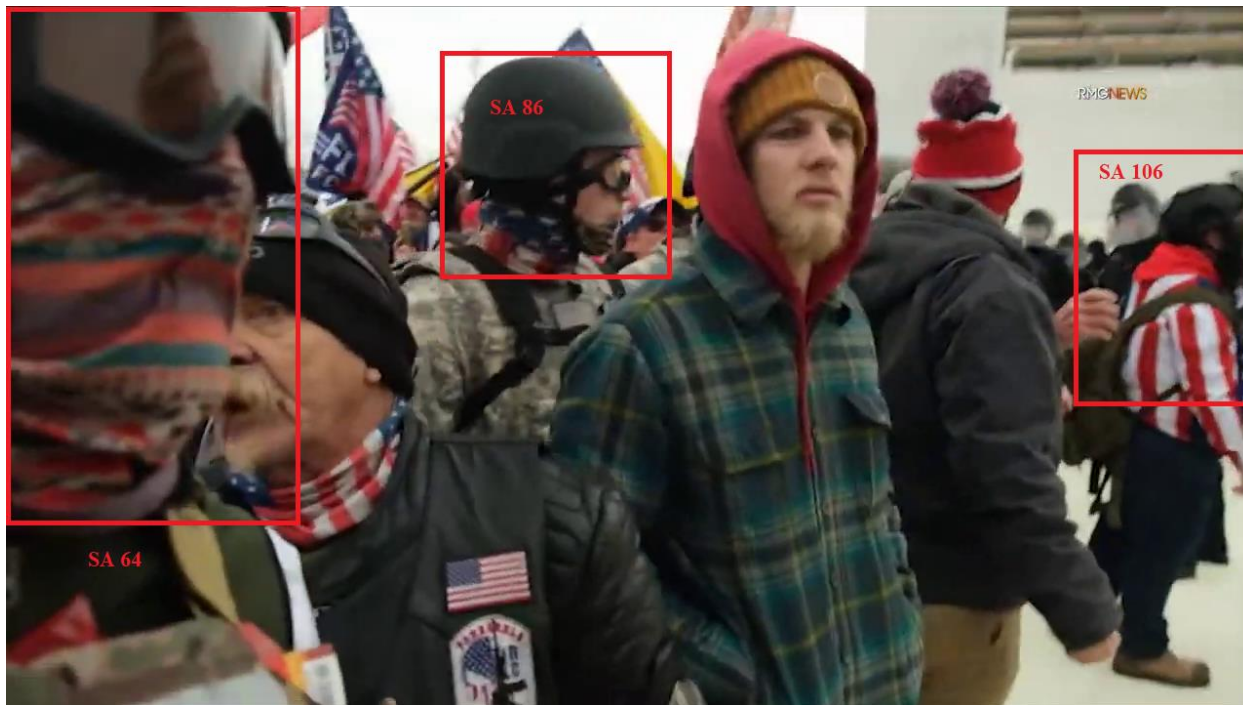

Gadsden Patcher #001 “Helmet” climbs past the Media Tower. He is a big player amongst the Gadsdens and, perhaps, second only to SA #000 Ray Epps on the West in terms of coordinating and controlling breaches. More Gadsdens and SA’s continue to materialize, including Gadsden Flagger #049 “Greenbean”, Gadsden Hatter #018 “Bluesnake”, Gadsden Masker #008 “Roofer”, SA #301 “Suspicious”, #089 “Bones n Bible”, etc. Orange Beanie #001 “Officer Beanie” maintains his presence in front of the Media Tower, which people are bringing Gadsden flags onto.

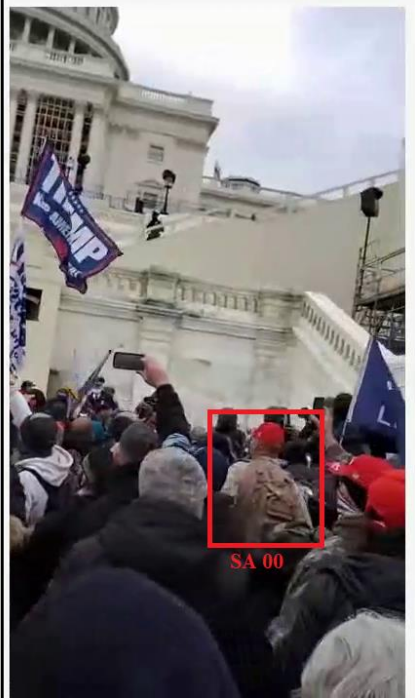

At 12:59 PM #118 Ethan Nordean moves down the line between agitators and Capitol Police, along with Gadsden Patcher #025 “Rider”, the “Armbandaid’s”, SA #106 Christopher Quaglin, #064 “White Tiger”, #086/087 “Gas Mask Twins”, Orange Beanie #005 “Beanie Commando” among other orange beanies, etc.

At 1:01 PM, Gadsden Patcher #016 “Rightwing” can be seen near the base of the Media Tower using a radio. Nearby, SA #095 “Camo Face” starts a battle cry using a megaphone next to Jeff McKellop. Gadsden Patcher #001 “Helmet” returns to the area, giving McKellop a disapproving look before moving to his assets. A Gadsden flag “hand-off” to Gadsden Flagger #050 “LedgeGuy” occurs, a common occurrence when paying attention to detail. Many GF’s acquire and transfer their flags to others. At 1:06

PM SA #000 Ray Epps is watching agitators clash with Capitol Police.

At around 1:05 PM Gadsden Patcher #001 "Helmet" is talking with Capitol Police near the North Scaffolding.

At around 1:07 PM, after SA #091 Bart Shively hugs police near the North Scaffolding as Gadsden Patcher #001 "Helmet" continues communicating with Capitol Police.

At around 1:08 PM Orange Beanie #001 “Officer Beanie” is visibly and repeatedly pointing to the yellow patch on his chest to signal something or get someone’s attention. A group of agitators come to him and start receiving orders. This may be a Gadsden patch after all.

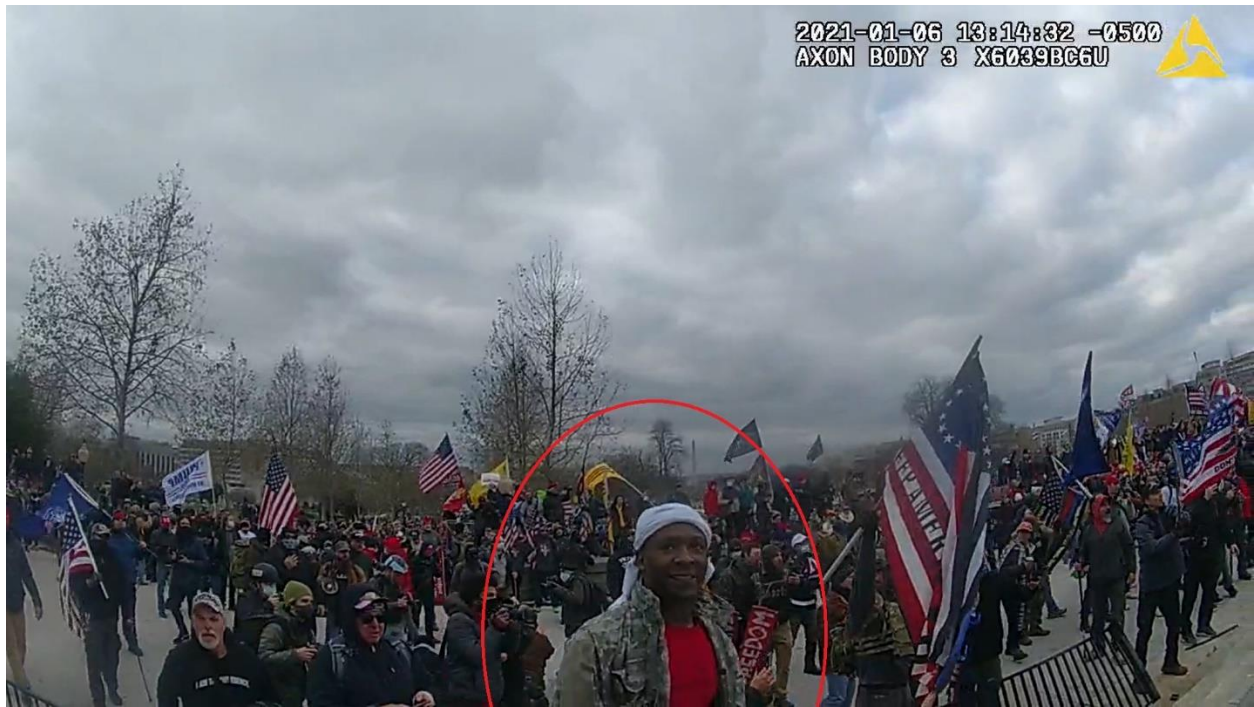

At 1:14 PM, SA #093 “Bill Cosby” agitates along police lines on West Terrace, Gadsden Flagger #47 “Rasta Redneck” and agitator SA #105 “Perpetrator Maximus” cause chaos for camera crews. “Rasta Redneck can again be seen with fists up in the air, a signal. Rasta Redneck is one of the most visible agitators on the West side of the Capitol Grounds. He bears a Gadsden flag sporadically, sometimes carried by a woman he is with, Gadsden Flagger # 048 “RedChick”. Besides constantly trying to rip barriers from police lines, and taunting Capitol Police, Rasta’s most notable quality (besides his appearance) is his constant raising up of his fists in the air, seemingly a signal of some kind. Likely law enforcement, SA #088 “Blue Rail Guy” and #089 “Bones n Bible” walk down the police line alerting Metro Police about a “gray hat”. Not soon after, a shot is taken at Sean McHugh but is deflected off of a flag. Other SA’s present include SA #116 “Fishlips”, #286 “Ribbed Coat Green”, and Media #001 “RMG News” filmer.

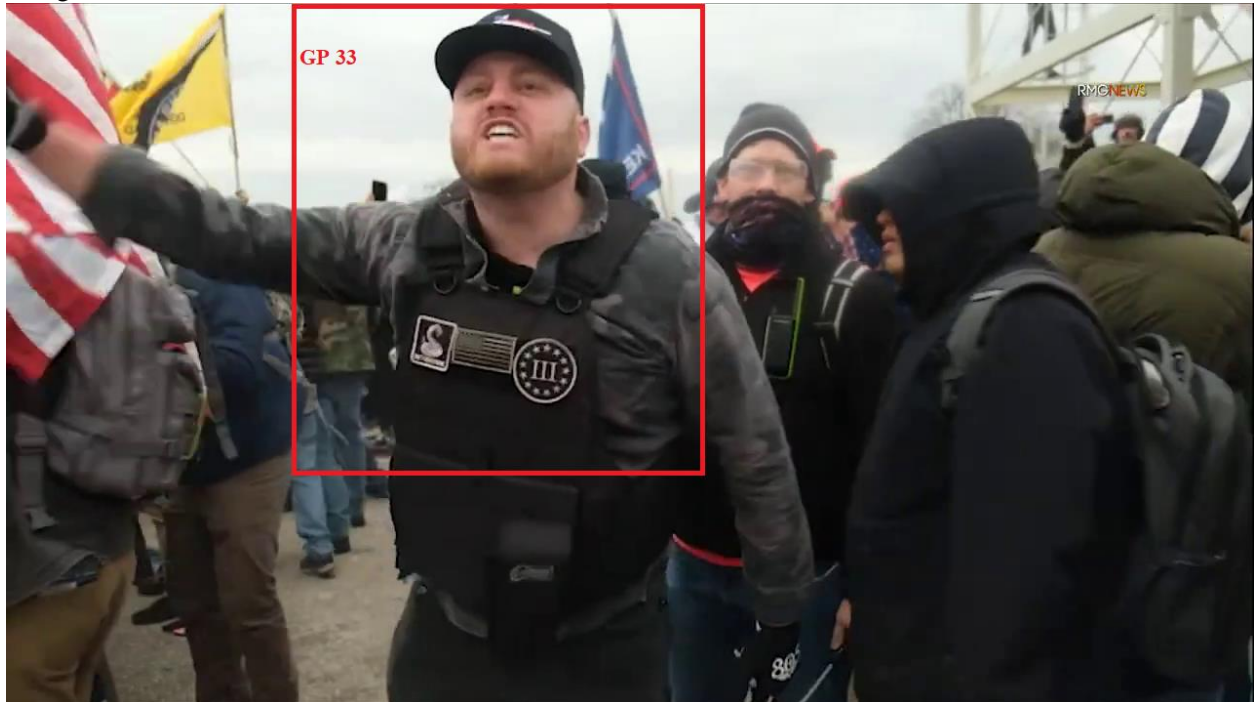

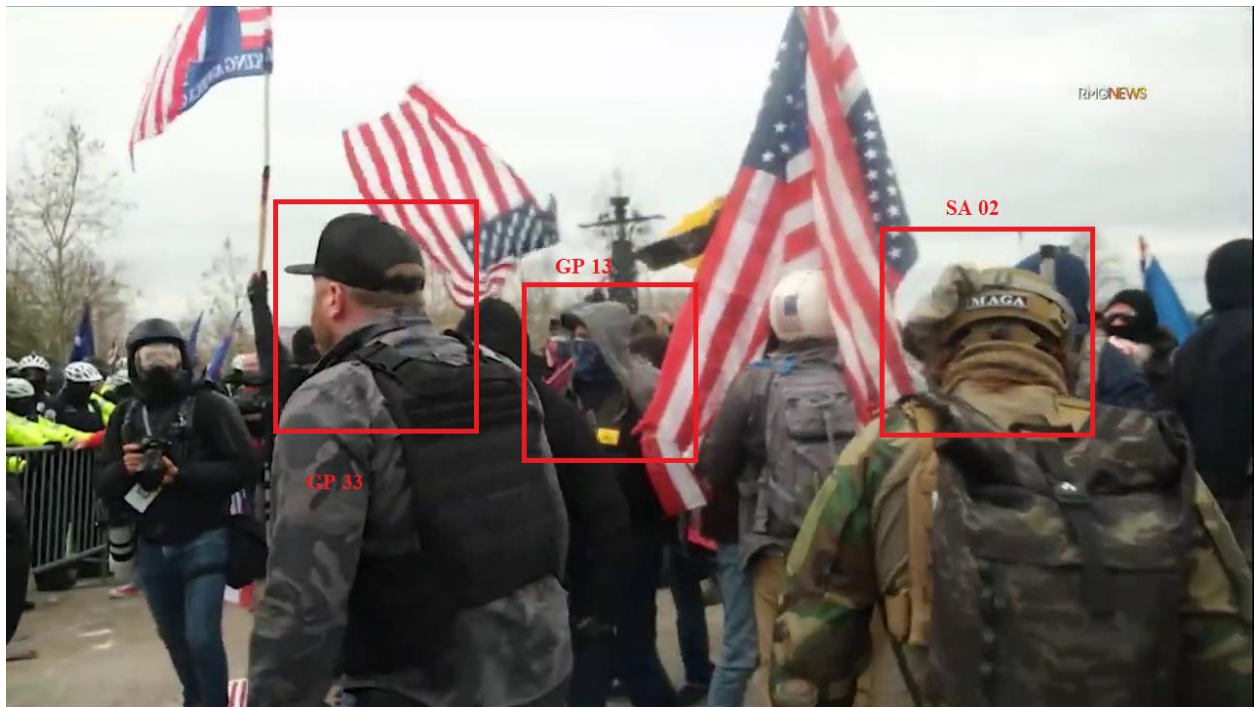

At around 1:22 PM Gadsden Patcher #033 Anthony Antonio aka “Waterboy” is agitating near police lines along with Gadsden Patcher #13 “Grayhood” and others. Mr. Antonio is currently home on “personal recognizance.”

At 1:24 PM Gadsden Flagger #047 “Rasta Redneck” and Gadsden Patcher #013 “Grayhood” are agitating near bike racks by the Media Tower and using phones to record officers. “Shepherd Man” is nearby agitating.

At 1:28 PM Gadsden Patcher #016 “Rightwing” is agitating on the South side of the West Terrace and holding up a police baton during chants.

At 1:29 PM, near Jose Padilla and SA's #229 "Generispook 9" and #286 "Ribbed Coat Green", Gadsden Patcher #013 "Grayhood" is still recording officers and . Gadsden Flagger #047 "Rasta Redneck" is still agitating and holding up fists.

1:34 PM Gadsden Patcher #022 "Pikeman" positions himself in front of the North Scaffolding.

1:35 PM Gadsden Patcher Team #032A/B “Vader”/“the Alien” is adjusting their masks. Media #005 Hanson of “Stop Hate” is interviewing people. An officer shoots into crowd. Orange Beanie #001 “Officer Beanie” appears to not have his yellow patch on at this point.

1:37 PM a cluster of Gadsden flags and Join-or-Die flags forms near bike racks and SA's #002 Robert Gieswein and # 064 "White Tiger".

At roughly 1:39 PM Gadsden Hatter Team #001/002 “LemonZest”/“LemonyKickit”, after speaking to other SA’s, cross paths with Antifa Media #011 John Sullivan on his way to the Capitol Building. SA #236 “GooseinGrey” is on the way to breach barriers on the East Plaza.

At 1:40 PM Media #011 John Sullivan passes a tight group with a minimum of three Gadsden flags.

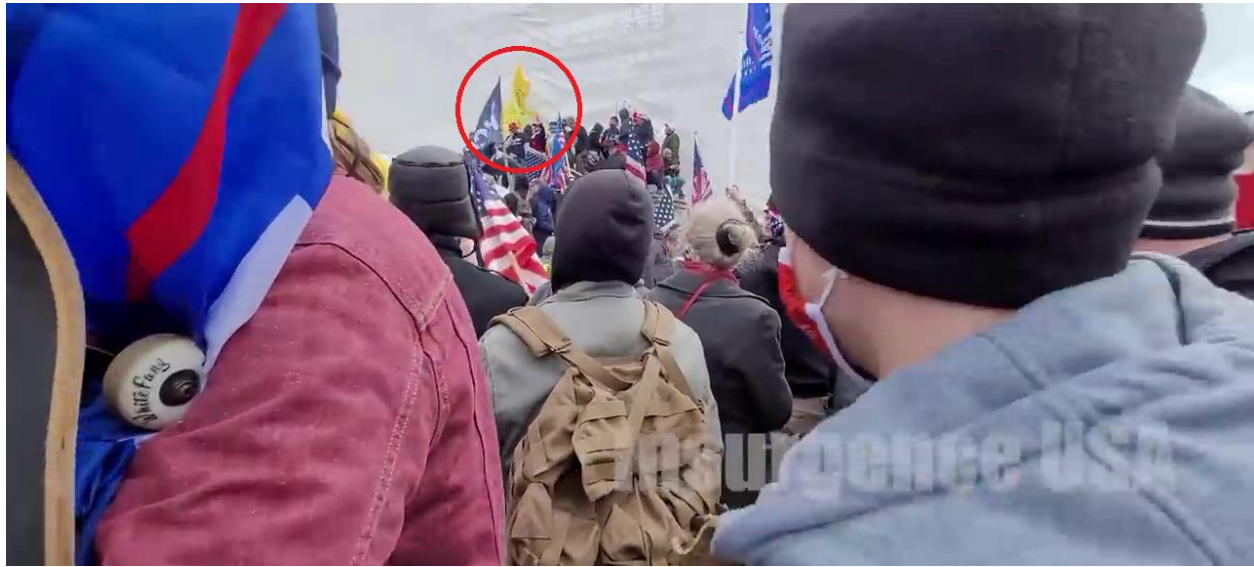

At 1:41 PM Media #011 John Sullivan nears the porta johns, and a pocket of Gadsdens, including Gadsden Patcher Team #027A/B “Sanitizer”/“Towel” in the middle of a conversation, and Gadsden Patcher #009 “Dumpster”.

At 1:43 PM Gadsden flags are raised atop the stairs of the North Scaffolding.

1:44 PM SA #304 "Obama Phone" is recording with his obviously new phone as SA #107 "Legally Stupid" is nonsensically ranting at police.

At 1:52_PM Gadsden Patcher #001 “Helmet” is in the North Scaffolding and climbing the frames to monitor the breach. SA’s and Gadsdens increase their presence.

SA #005 Dominik Pezzola is being whispered to by Orange Beanie #005 Gadsden Masker” (may be a red beanie, lighting is questionable), next to Gadsden Flagger #045 “Raw Alaska”. Gadsden Patcher #001 “Helmet” is observing breach progress and holding either binoculars or a camera.

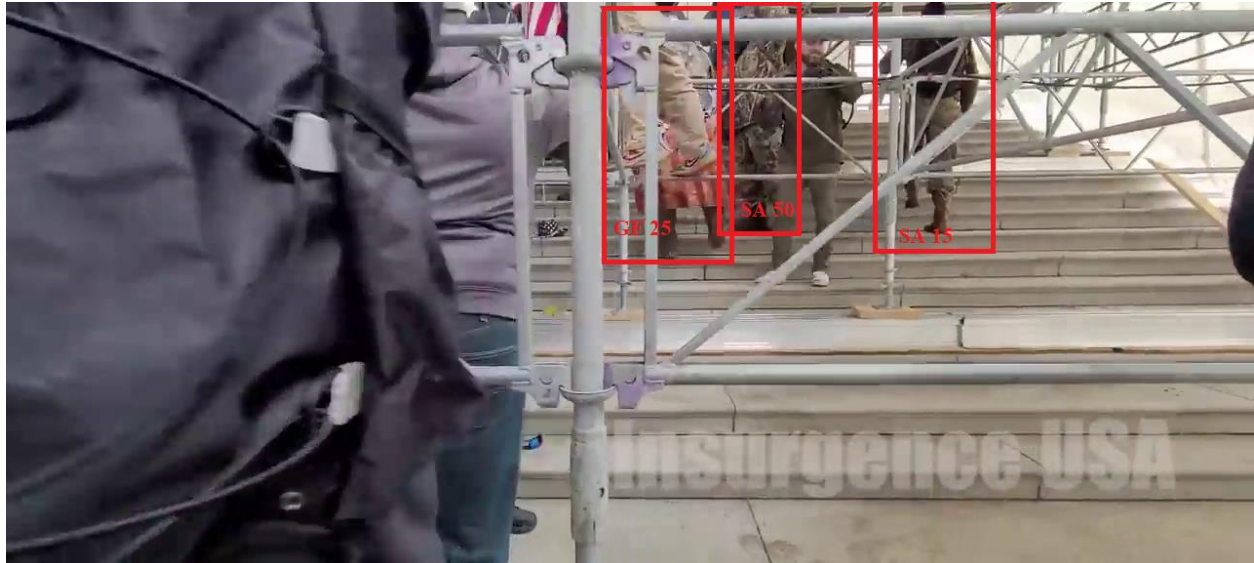

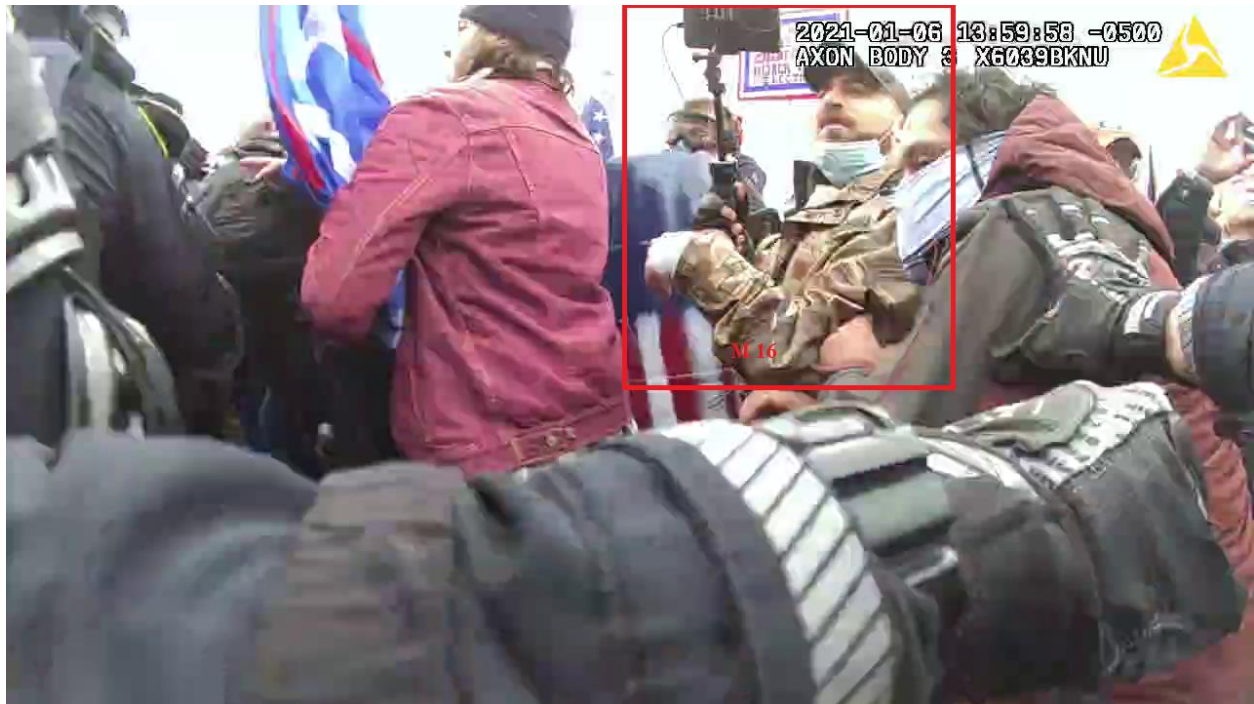

1:55 PM Gadsden Patcher #002 “Armored” and #024 “Recycler” are in the North Scaffolding, and #022 “Pikeman” is in front of the scaffolds communicating with people.

At 2:04 PM Gadsden Patcher 024 “Recycler” is at the front of the line between the Metro P.D. and protestors near the North Scaffolding area, agitating in a southern-ish accent. At 2:04 PM Capitol Police take a gear bag from an ambulance towards the Memorial Door entrance.
